Tools & Safety Equipment

- Torches
- General Roofing Ancillaries

Roofing and Waterproofing

Bituminous Roofing Membranes

We stock a comprehensive range of high performance bituminous roofing membranes. Whatever the job, you can rely on Roof Warehouse to provide products with the ideal combination of performance, handling characteristics and value.

Our range includes:

- High performance APP & SBS modified membranes
- Glass fibre based products – Types 3G, 3B and 3H
- British Standard fibre-based products
- Metal lined and traditional vapour control layers
- 2mm & 3mm sanded underlays
- Full range of coloured mineral cap sheets
- Torch-on, Pour and roll and Self-Adhesive Options
- Wide range of branded or own label products (Trident)

Underslatings

We also stock a range of underslatings, including traditional bituminous products (Type 1F), and three-layer, spun bonded breathable membranes. We have products which are suitable for both cold and warm roof application, many of which also carry BBA certification.

Roofing and Waterproofing

Mastic Asphalt

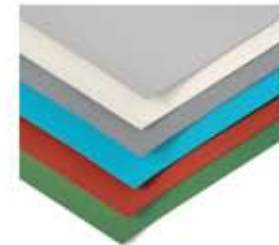

Mastic asphalt is probably the oldest, and most trusted method of waterproofing available today. All major grades of mastic asphalt are available from our stock including:

PERMANITE
ASPHALT

- Flooring
- Roofing
- Paving
- Tanking
- Recreational duty
- Permaphalt (recognised installers only)
- Hot charge available to order
- Pre gritted available to order

ROOF XL

Single Ply

These modern and attractive roofing membranes can be mechanically attached using fixings, or can be loosely laid and covered with gravel, concrete pavers or used as the substrate for garden roofs.

We stock both FPO (flexible polyolefin) and PVC membranes which are UV stable and ozone resistant. They are engineered to allow rapid and uniform site jointing requiring only hot air.

Roofing and Waterproofing

Liquid Roofing

We also stock liquid rubber protective roof coatings, which are cold-applied and environmentally friendly. These coatings provide a strong, flexible, seamless membrane with superior adhesion that protects structures from the harmful effects of water, chemical and bacterial attack.

Liquid Rubber

Liquid Rubber is a simple yet extremely effective waterproofing membrane. It is ideal for large areas and also when access is difficult or where there are complicated structures on the roof.

Solutions and Compounds

Bitumen roof waterproofing compounds continue to represent exceptional value for flat roof weatherproofing and emergency repairs. Our range covers every application. In addition, our polymer modified products offer additional performance and flexibility.

CROMAR
BUILDING PRODUCTS

We also stock an extensive range of sealants, mastics, adhesives, flashings, and many other solutions and roofing compounds.

Roofing Accessories

Insulation

We currently stock a range of quality branded PIR insulation. Boards are available in a range of facings, and are supplied in all common thicknesses from 30mm to 120mm. Any items or major brands that we do not stock are usually available within 3 working days from order (subject to the item not being a made to order special).

Fixings

We stock many screws, nails and associated roof fixing products.

Our range includes:

- Paslode nails – 65mm, 75mm, 90mm sizes
- Clout nails – available in 1kg, 5kg and 25kg packs
- Round wire nails – available in 1kg, 5kg and 25kg packs
- Ring shank nails – available in 1kg and 5kg packs
- Slab nails – available in 1kg packs
- Hammer fixings – 40mm, 60mm, 80mm, 100mm sizes
- Twin thread screws – 1.25", 1.5", 2.0", 4.0" sizes

And if we haven't got the specific size you are looking for, just ask one of our trade staff for details, as other sizes are available to order.

We also keep a large range of other fixings in stock, such as rawl plugs, masonry nails, copper clouts, disc rivets and copper slate straps.

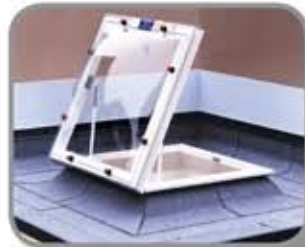

Roofing Accessories

Rooflights & Edge Trims

The rooflights provided by Roof Warehouse are high quality dome rooflights, designed to make optimum use of natural light. They are offered in a wide range of sizes, shapes and glazing options to meet virtually any specifier and user requirement.

We also stock an extensive range of GRP & aluminium felt trims, asphalt trims and termination bars. Please ask any of our staff for further details.

Timber and Plywood

We supply high quality 18mm plywood and OSB/3 boards, responsibly produced in accordance with Forest Stewardship Council guidelines.

In addition, we can offer in a comprehensive range of sizes and lengths. Each roofing batten that we sell conforms to the PEFC Chain of Custody, and is fully marked for identification.

APT Timber UK

Roofing Accessories

Plastics & Guttering

We stock a leading brand of PVC-UE Roofline, Window and Cladding systems. These high quality products are BBA Certified and offer a complete maintenance free solution to both roofline and window systems construction. The tough impermeable outer skin of the foam boards provides year round protection from both the weather and insect infestation.

Other features include:

Maintenance - Will not rot, warp, crack or erode. They do not require painting or any other protective treatment.

Weather resistance - The impermeable outer skin and closed-cell composition of the boards is unaffected by moisture and will not rot or corrode.

Fire resistance - They do not burn freely and out perform timber in fire. The materials are not easily ignitable and have a Class 1 fire rating in accordance with BS476: Part 7 1997.

Thermal efficiency - Good insulating properties, improving the overall thermal insulation of composite wall construction.

Compatibility - No chemical reaction with other common building materials.

Workable - Cutting, drilling, nailing and shaping are easily achieved.

Finish - High gloss finish with blemish free surface.

Roofing Accessories

Lead Products

Lead sheet has been in use as a building material for centuries. It adorns the roofs of churches, offices, factories, public buildings and homes throughout the United Kingdom because of its ease of use, durability and the pleasing grey colour of its protective patina. It is

also Lead sheet is easily shaped, and is long lasting and flexible in all weather conditions. It is also easy to install and will out-perform other building materials, if the rules of good practice are followed. Typical lead accessories include lead wood roll, expansion joints, Geotec and lead outlets.

Lead-Alternative Products

Lead-free flashing is 80% lighter than lead, giving handling, structural and health and safety advantages. It can also be up to 50% quicker to install than lead, is fully malleable, can be worked in both directions and is self-sealing if punctured.

Lead-free flashing is not susceptible to thermal movement, and is compatible with virtually all common building materials and components. Importantly, this kind of material can help reduce the impact of lead theft, as it has no scrap or re-sale value.

Roofing Accessories

Tiles and Slabs

We carry a large stock of promenade tiles in the Checker plate and Straited styles, including adhesives and support pads.

The tiles that we stock are manufactured to the highest quality standards and are produced from a blend of silica sand, high strength granite, top quality cement, glass fibre and product enhancing additives. This attention to the mix constituents ensures, through a regime of regular testing, that the tiles provided are strong and durable and can be used with complete confidence.

SPARTAN TILES

In addition to the above range of tiles we also supply a P.U. Adhesive which is specially formulated to adhere the promenade tiles to a variety of roof surfaces, including bituminous felt and sanded asphalt etc. The adhesive is available in 1 litre bottles which is sufficient to adhere approximately 5m² of tile when used in accordance with the instructions.

Gas

We stock all types and sizes of gas, including propane, butane, forklift and patio solutions, together with a range of regulators.

Tools & Safety Equipment

Torches

For the perfect installation, you can rely on the Roof Warehouse to provide you with a selection of torching equipment, from blow torch kits to torch handles, neck tubes and adapters.

We also stock a wide range of hot air welders, ideal for single ply and other seam-welded roofing systems.

Tools & Safety Equipment

General Roofing Ancillaries

Whatever your project, Roof Warehouse has the complete range of tools and protective equipment to complete the perfect job.
